Kyoto University Libraries

■ How to use KU Article Linker

Navigating to full-text articles from Databases

What is KU Article Linker？

> I found an interesting article in the bibliographic database.
> How can I get the full-text?

➡ In such a case, let's try KU Article Linker !!

KU Article Linker is an open URL link-resolver, which navigates a full-text article from search results of library bibliographic databases.
Clicking "KU Article Linker" icon found on search results of bibliographic databases, then you can reach a window which connects to licensed electronic journals or full-texts will be displayed. Using this window, you can get easily full-text articles or locate journals.

Bibliographic Databases	KU Article Linker	Full-text article (electronic journals)

- PubMed(KU only)
- Web of Science
- CiNii | Scopus
- Google Scholar
- KU EJ list / KULINE

etc.・・・

① Click "Article Linker" icon.

Kyoto University Libraries ARTICLE LINKER

② Click links.

- EJ : ScienceDirect
- EJ: J-Stage
- KULINE /Interlibrary Loan
- Google, Google Scholar
- Impact Factor

etc.・・・
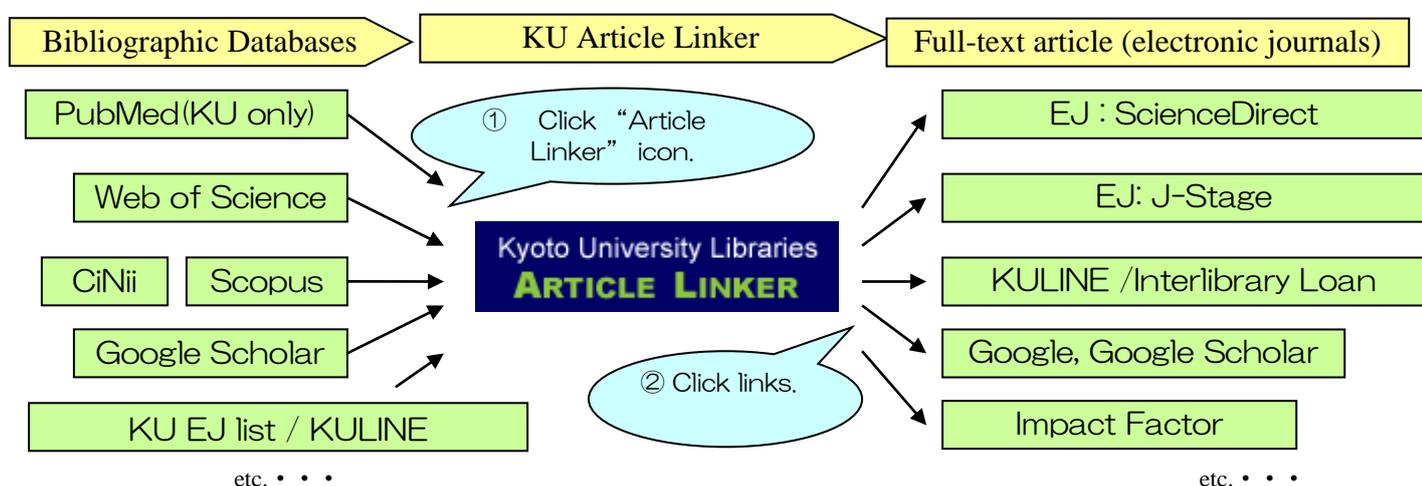

How to use KU Article Linker?

It is possible to use KU Article Linker in the following two cases.

① From search results of Databases.

1. When searching a bibliographic database, icons such as 京大ArticleLinker Find Full Text , 京大ArticleLinker🔍 ,
   or a text-link such as **"Full-Text@KyotoUniv"** will be displayed on the search result.

2. Clicking these icons, the "KU Article Linker window" will be brought up.
   "KU Article Linker window" includes bibliographic information of articles and a link to the full-text.
   ◆ When it is possible to access articles via electronic journals, the link to journal page will be displayed. Click this link and obtain the article.
   ◆ When it is not possible to access articles via electronic journals, it says <u>"Sorry, this item is not available online. Please use options below to get the printed version:"</u> In this case, click a link to "KULINE" and search the library catalog to see if Kyoto university libraries have a printed copy of the journal. If Kyoto university libraries do not have the journal for the year you need, then you can request the library to obtain a copy of the article by interlibrary loan. Moreover, it may be possible to search for articles by clicking links to "PubMed" or "Google".

② From Electronic Journal List / KULINE

1. When searching by **DOI or PubMed ID Number** in the E-Journals List, "KU Article Linker window" will be brought up. Also, when searching journals by KULINE, 京大ArticleLinker🔍 icon will be displayed on the right-hand side of ISSN. Click this icon and "Article Linker window" will be displayed.

Procedure for searching articles: Using KU Article Linker

STEP1 Click the icon [京大 ArticleLinker Find Full Text] found on the database.

STEP2 If the full-text is available.

Available

Get the article via e-journals !

Not available

STEP3 Search for more information in the following ways.
★ Checking "Google Scholar" etc. to see if the free full-text is available.
★ Checking "KULINE" to see whether or not Kyoto university library holds the journal.
★ Making an Interlibrary Loan request when the item is not available in Kyoto university.
★ Searching for related articles (same subject, same author) in PubMed or CiNii.
