

ProQuest Workshop Oct. 8, 2026 | 5:00 PM–6:00 PM

When Did AI Become an Environmental Issue?

Exploring 40 Years of Technological History through

The New York Times × ProQuest

Join Clarivate's instructor to explore 40 years of AI development through The New York Times in ProQuest. Participants will learn how to search across decades, track changes in terminology, and follow the evolution of ideas over time using effective research strategies.

17:00–17:20

Introduction

- Features of the ProQuest
- About The New York Times
- Key terminology in the history of AI

17:20–17:45

Demonstration

- Searching with evolving terminology

17:45–18:00

- Q&A

Audience

- Undergraduate Students
- Graduate Students
- Faculty and Staff

WebEx Registration

Advance registration is required by noon on the day of the event. Please join the session at least five minutes before the start time. <https://tinyurl.com/yuwk6wse>
