### Kyoto University: Recommended book series

※Please access to each book series by scanning QR code or clicking cover image.

#### Lecture Notes in Computer Science

- Publication in 1973
- 600+ volumes / Year
- 20,000+ papers
- 45,000+ authors

\*Lecture Notes in Computer Science subseries

#### Lecture Notes in Artificial Intelligence

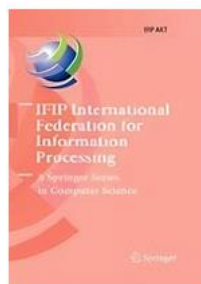

#### Lecture Notes in Bioinformatics

#### Communications in Computer and Information Science

- Downloads: 67M+
- Citations 130K+

#### IFIP Advances in Information and Communication

- Downloads: 35M+
- Citations: 110K+

### [Subdisciplines under Computer Science]

- Artificial Intelligence
- Computer Communication Networks
- Information Systems and Communication Service
- Computer Vision and Pattern Recognition
- Information and System Security
- Machine Learning
- Computational Modeling / Computational Statistics
