

Let's Get the ECS-ID !

For the use of E-Journals/ E-Books & Databases

1 To Use E-Journals & Databases

Kyoto University offers so many titles of E-Journal, E-Book, and Database to the member of Kyoto University for education and research. When you use these e-resources, you need to be **authenticated** with your **Educational Computer System ID (ECS-ID)**. ※SPS-ID (Groupware ID) for the faculty and staff

2 Why ? - the purpose of authentication

◆ Confirmation of user status

Due to the contracts between publishers and Kyoto University, access to e-resources is restricted exclusively to members of Kyoto University. We have to confirm your user status by authentication.

◆ Investigation of inappropriate use

If inappropriate use such as unreasonable downloads is recognized, the publisher suspends access to the e-resource from all the university members. In such a case, the university is required to identify its cause and report it to the publisher. The Authentication System enables prompt investigation of such incidents, thus contributing to early restoration of access to the e-resources.
