When you use these e-resources, you need to be **authenticated** with your **Educational Computer System ID (ECS-ID)**. ※SPS-ID (Groupware ID) for the faculty and staff

2 Why ? - the purpose of authentication

◆ Confirmation of user status

Due to the contracts between publishers and Kyoto University, access to e-resources is restricted exclusively to members of Kyoto University. We have to confirm your user status by authentication.

◆ Investigation of inappropriate use

When inappropriate use such as unreasonable downloads is recognized, the publisher suspends access to the e-resource from all the university members. In such a case, the university is required to identify its cause and report it to the publisher before the access is restored. The Authentication System helps in carrying out the investigation procedure promptly.
